

Coastal[®] Form Oil

COASTAL FORM OILS are blended using selected base oils and special additives designed to wet metal and wood form materials, giving excellent parting characteristics to concrete forms.

COASTAL FORM OILS are designed to keep forms clean and provide longer form life while providing rust protection to metal forms.

COASTAL FORM OIL 90 FM provides cleaner and easier separation of concrete from wood, metal and other forms. **COASTAL FORM OIL 90 FM** contains special mold release agents that chemically react with the concrete which promotes easy separation from forms.

COASTAL FORM OILS may be brushed, sponged or sprayed on.

COASTAL FORM OILS have also been successfully use when sprayed on cement mixer drums to facilitate cleaning the mixers.

Benefits

- Clean separation from forms
- Rust protection to metal forms
- Minimized rust and corrosion
- Good low temperature pour point for indoor and outdoor use
