

Coastal GL-4 EP Gear Oils

Coastal GL-4 EP Gear Oils are formulated with highly refined base oils and an additive package that provides extreme pressure (EP) protection, inhibits rust and corrosion, and contains a highly effective antifoam agent.

Coastal GL-4 EP Gear Oils are recommended for spiral bevel gears operating under mild to severe conditions of speed and load or axles with hypoid gears operating under moderate speeds and loads. Not for use in limited slip differentials or applications requiring an API GL-5 gear oil.
