

Coastal[®] Premium R&O Oil

COASTAL PREMIUM R&O OILS - are premium multi-purpose lubricants blended from high quality paraffinic base oils. All viscosity grades are blended with an advanced additive package which provides exceptional rust and corrosion protection to provide the system protection and long service life even under severe operating conditions.

COASTAL PREMIUM R&O OILS contain an effective anti-foam agent that prevents the formation of harmful foam in equipment reservoirs while allowing the rapid release of entrained air and water. These additives also provide resistance to oxidation and the formation of sludge at elevated temperatures.

COASTAL PREMIUM R&O OILS are recommended for use in wide variety of industrial applications including circulating systems, hydraulic systems that do not require anti-wear oils, pump bearings, gear oils, compressors, heat transfer systems, electric motors, vacuum pumps and generators.

COASTAL PREMIUM R&O OILS can also be used in those compressors calling for a non-detergent motor oil.

Benefits

- Outstanding Thermal Stability
- Exceptional protection against rust and corrosion
- Excellent anti-foam capabilities
- Rapid release of entrained air
- Exceeds Cincinnati Milacron Specification P-38 (ISO 32), P-55 (ISO 46), P-54 (ISO 68)
