

Lubriguard™ Premium Hi-Temp EP Grease

LUBRIGUARD PREMIUM HI-TEMP EP GREASE is an NLGI Grade 2 grease and is recommended for fleet commercial, automotive, and industrial applications. The primary application is in high temperature operations such as wheel bearings on vehicles equipped with conventional, disc and antilock braking systems. This grease will protect wheel bearings on cars, trucks, buses, vans and farm equipment with disc brakes, even under heavy loads and shock loading. It is certified NLGI GC-LB, which is the highest rating available from the National Lubricating Grease Institute.

LUBRIGUARD PREMIUM HI-TEMP EP GREASE eliminates the need to inventory other greases, as it may be used in wheel bearings, ball joints, U-joints, chassis, fifth wheels, king pins, as well as industrial bearings, couplings and gears.

Benefits

- Premium quality lithium complex, Extreme Pressure (EP) grease
- Outstanding protection in wet environments
- “Tacky”, stay in place formula makes it excellent for fifth wheels
- Superior wheel bearing and chassis performance
- NLGI Service Classification GC-LB
- Superior protection to lubricate a wide variety of severe duty automotive, trucking, industrial, mining and construction equipment
