General Advice
If exposed or concerned: Get medical advice/attention.

Eye Contact
Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin Contact
Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician. Discard contaminated shoes.

Inhalation
Move to fresh air in case of accidental inhalation of vapors. If not breathing, give artificial respiration. Obtain medical attention.

Ingestion
Immediately call a poison center or doctor/physician. Do not induce vomiting. Keep individual calm. Obtain medical attention immediately.
Most important symptoms and effects

Symptoms
May be harmful in contact with skin. May be harmful or fatal if swallowed and enters airways. May cause genetic defects. Excessive accidental exposure may cause headache, dizziness, nausea and mild respiratory irritation. Breathing of high vapor concentrations may cause central nervous system depression resulting in dizziness, light-headedness, headache, nausea and loss of coordination. Continued inhalation may result in unconsciousness and death.

Indication of any immediate medical attention and special treatment needed
