1. IDENTIFICATION

Product Identifier
Product Name  Autoguard Windshield Washer Fluid 21°F

Other means of identification
SDS #  AG-027

Recommended use of the chemical and restrictions on use
Recommended Use  Windshield Washer Fluid

Details of the supplier of the safety data sheet

Emergency Telephone Number
Company Phone Number  1-800-428-9284
Emergency Telephone (24 hr)  CHEMTREC 1-800-424-9300

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

GHS-US Classification

Flam. Liq. 2  H227
Acute Tox. 4 (Oral)  H302
STOT SE 1  H370

Full text of H-phrases:  see Section 16

Label elements

GHS-US Labeling
Hazard pictograms (GHS-US)

Signal word (GHS-US):  Danger
Hazard statements (GHS-US):
H227 – Combustible liquid
H302 – Harmful if swallowed or if inhaled.
H370 – Causes damage to organs.  (May cause blindness if swallowed)

Precautionary statements (GHS-US):
P201 – Obtain special instructions before use
P202 – Do not handle until all safety precautions have been read and understood
P210 – Keep away from heat, hot surfaces, open flames, sparks.  No smoking
P260 – Do not breathe mist, spray, vapors
P264 – Wash affected areas thoroughly after handling
P270 – Do not eat, drink or smoke when using this product
P280 – Wear personal protective equipment as required
P301+P310 – If swallowed: immediately call doctor/physician or poison center.
Rinse mouth
P305+P351+P338 – If in eyes: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
P370+P378 – In case of fire: use foam, sand, dry powder, carbon dioxide to extinguish
P403+P235 – Store in a well ventilated place. Keep cool
P405 – Store locked up
P501 – Dispose of contents/container, in a safe manner, to appropriate waste disposal facility, in accordance with local/region/national/international regulations

Other hazards:
No additional information available

Unknown acute toxicity (GHS-US):
No data available

4. FIRST-AID MEASURES

Description of first aid measures

First-aid measures general:
Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible)

First-aid measures after inhalation:
If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek immediate medical advice. Allow the victim to rest. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

First-aid measures after skin contact:
Wash immediately with lots of water. Soap may be used. Do not apply (chemical) neutralizing agents. Remove clothing before washing. Consult with a doctor/medical service.

First-aid measures after eye contact:
Remove contact lenses, if present and easy to do. Continue rinsing. Rinse immediately with plenty of water for 15 minutes, lifting lower and upper lids. Take victim to ophthalmologist if irritation persists.

First-aid measures after ingestion:
Obtain emergency medical attention. Rinse mouth. Never give anything by mouth to an unconscious person.

Most important symptoms and effects

Symptoms/injuries after inhalation:
May cause irritation of the nose and throat. High concentrations may cause central nervous system depression characterized by severe headaches, dizziness, nausea and confusion.
Symptoms/injuries after skin contact: Prolonged exposure to skin may cause skin irritation experienced as burning, dryness, cracking and redness.

Symptoms/injuries after eye contact: May cause severe irritation.

Symptoms/injuries after ingestion: May cause nausea, abdominal pain, headache, shortness of breath, visual impairment and blindness. Severe poisoning can lead to coma and death.

Indication of any immediate medical attention and special treatment needed
This product contains methanol which can cause intoxication and depression of the central nervous system. Methanol is metabolized to formic acid and formaldehyde. These metabolites can cause metabolic acidosis, visual disturbances and blindness. Since metabolism is required for these toxic symptoms, their onset may be delayed from 6 to 30 hours following ingestion.

5. FIRE-FIGHTING MEASURES

Extinguishing Media

Unsuitable Extinguishing Media: Do not use a heavy water stream.

Special hazards arising from the substance or mixture

Fire Hazard: Flammable liquid and vapor. Vapors are heavier than air and may travel along the ground or may be moved by ventilation.

Explosion hazard: Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.

Advice for firefighters

Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Special protective equipment for firefighters: Wear positive pressure self-contained breathing apparatus (SCBA). Protective fire fighting clothing (includes fire-fighting helmet, coat, pants, boots and gloves).

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

General measures: Remove ignition sources. Use special care to avoid static electric charges. Do not breathe vapor or mist. Wear appropriate respirator when ventilation is inadequate.

For non-emergency personnel

For emergency responders

Protective equipment: Equip cleanup crew with proper protection.
Emergency procedures: Ventilate area.

Environmental precautions
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

Methods and material for containment and cleaning up

For containment: Contain leaking substance. Contain released substance, pump into suitable containers. Dam up the liquid spill. Plug the leak, cut off the supply. Try to reduce evaporation. Dilute combustible/toxic gases/vapors with water spray. Take account of toxic/corrosive precipitation water.

Methods for cleaning up: Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.

Reference to other sections
See Section 8. Exposure controls and personal protection.

7. HANDLING AND STORAGE

Precautions for safe handling
Additional hazards when processed: In use, may form flammable vapor-air mixture.

Precautions for safe handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.

Hygiene measures: Wash contaminated clothing before reuse.

Conditions for safe storage, including any incompatibilities
Technical measures: Use explosion-proof electrical, lighting, ventilating equipment. Ground/bond container and receiving equipment. Proper grounding procedures to avoid static electricity should be followed.

Storage conditions: Keep only in the original container in a cool, well ventilated place away from: Heat sources. Keep container closed when not in use. Do not store near food, foodstuffs, drugs or potable water supplies.

Incompatible products: Keep away from strong acids, strong bases and oxidizing agents.

Incompatible materials: Sources of ignition.

Specific end use(s)
No additional information available.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

<table>
<thead>

Exposure controls
Personal protective equipment: Avoid all unnecessary exposure. Gloves. Safety glasses.

Hand protection: Wear protective gloves.

Eye protection: Chemical goggles or safety glasses.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: In case of inadequate ventilation wear respiratory protection. Wear appropriate mask.

Other information: Do not eat, drink or smoke during use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical State: Liquid
Color: Blue
Odor: Alcohol
Odor threshold: No data available
Relative evaporation rate butylacetate=1): Greater than n-butyl acetate
Freezing point: -6°C (21°F)
Boiling point: 90 - 92°C (196 – 198°F)
Flash point: 54°C (130°F) Method Used: TCC
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapor pressure: 28 mm Hg @ 20°C
Relative vapor density at 20°C: Heavier than air
Specific Gravity: 0.98 @ 20°C
Solubility: Water, Complete
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosive properties: No data available
Oxidizing properties: No data available
Explosive limits: 6 – 36 vol %

Other information
VOC content: 8.00 %

10. STABILITY AND REACTIVITY

Reactivity
No additional information available

Chemical Stability
Stable.

Possibility of Hazardous Reactions
Hazardous polymerization will not occur.
Conditions to Avoid
Keep away from ignition sources/sparks. Sources of ignition.

Incompatible Materials
Keep away from strong acids, strong bases and oxidizing agents.

Hazardous Decomposition Products

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity: Oral: Harmful if swallowed.

Skin corrosion/irritation: Not classified

Serious eye damage/irritation: Not classified

Respiratory or skin sensitization: Not classified

Germ cell mutagenicity: Not classified

Carcinogenicity: Not classified

Reproductive toxicity: Not classified

Specific target organ toxicity (single version): Causes damage to organs (May cause blindness if swallowed).

Specific target organ toxicity (repeated exposure): Not classified

Aspiration hazard: Not classified

Symptoms/injuries after inhalation: May cause irritation of the nose and throat. High concentrations may cause acute central nervous system characterized by severe headaches, dizziness, nausea and confusion.

Symptoms/injuries after skin contact: Prolonged exposure to skin may cause skin irritation experienced as burning, dryness, cracking and redness.

Symptoms/injuries after eye contact: May cause severe irritation.

Symptoms/injuries after ingestion: May cause nausea, abdominal pain, headache, shortness of breath, visual impairment and blindness. Severe poisoning can lead to coma and death.

12. ECOLOGICAL INFORMATION

methanol (67-56-1)

<table>
<thead>
<tr>

Bioaccumulative potential:

methanol (67-56-1)

| BCF fish 1 | < 10 (Leuciscus idus) |
| Log Pow | -0.77 (Experimental value; Other, Experimental value; Other) |
| Bioaccumulative potential | Low potential for bioaccumulation (BCF < 500) |

Mobility in soil:

methanol (67-56-1)

| Surface tension | 0.023 N/m (20°C) |

Other adverse effects:

Effect on ozone layer: No known effect on the ozone layer.

Effect on global warming: No known ecological damage caused by this product.

Other information: Avoid release to the environment.

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Waste disposal recommendations: Dispose of contents/container in a safe manner, to appropriate waste disposal facility, in accordance with local/regional/national/international regulations.

Ecology – waste materials: Avoid release to the environment.
14. TRANSPORT INFORMATION

In accordance with DOT

Not a dangerous good in sense of transport regulations.

Other information: Not regulated according to 49 CFR 173.116 (b)(3).

ADR
No additional information available

Transport by sea
UN-No. (IMDG) 1993
Proper Shipping Name (IMDG) FLAMMABLE LIQUID, N.O.S. (Methanol)
Class (IMDG) 3 – Flammable Liquids
Packing group (IMDG) III – Minor Danger
Limited quantities (IMDG) Proper Shipping Name: Limited Quantities of Class 3 (This must be noted on Shipper’s Declaration).

Air Transport
UN-No. (IATA) 1993
Proper Shipping Name (IATA) FLAMMABLE LIQUID, N.O.S. (Methanol)
Class (IATA) 3 – Flammable Liquids
Packing group (IATA) III – Minor Danger
Instruction "passenger"– Limited quantities Y309 (Max quantity per package 10L) Special Provision A3
