1. IDENTIFICATION

Product Identifier
Product Name: Autoguard Extended Life 50/50 Prediluted Antifreeze & Coolant

Other means of identification
SDS #: AG-039

Recommended use of the chemical and restrictions on use
Recommended Use: Automotive Engine Antifreeze & Coolant

Details of the supplier of the safety data sheet

Emergency Telephone Number
Company Phone Number: 1-800-428-9284
Emergency Telephone (24 hr): CHEMTREC 1-800-424-9300

2. HAZARDS IDENTIFICATION

GHS-US Classification
Acute Tox. 4 (Oral): H302
Repr. 2: H361
STOT RE 2: H373

Full text of H-phrases: see Section 16

GHS-US Labeling
Hazard pictograms (GHS-US)

Signal word (GHS-US): Warning
Hazard statements (GHS-US):
H302 – Harmful if swallowed
H361 – Suspected of damaging fertility or the unborn child
H373 – May cause damage to organs (kidneys) through prolonged or repeated exposure (oral)

Precautionary statements (GHS-US):
P201 – Obtain special instructions before use
P202 – Do not handle until all safety precautions have been read and understood
P260 – Do not breathe mist, spray, vapors
P264 – Wash affected areas thoroughly after handling
P270 – Do not eat, drink or smoke when using this product
P280 – Wear personal protective equipment as required
P301+P310 – If swallowed: immediately call doctor/physician or poison center
P301+P330+P331 – If swallowed: rinse mouth. DO NOT induce vomiting
Other hazards: No additional information available
Unknown acute toxicity (GHS-US): No data available

4. FIRST-AID MEASURES

Description of first aid measures

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible)

First-aid measures after inhalation: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek immediate medical advice. Allow the victim to rest. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

First-aid measures after skin contact: Remove contaminated clothing. Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: rinse immediately with plenty of water (for at least 15 minutes). Get medical advice/attention. Specific treatment (see supplemental first aid instructions on this label).

First-aid measures after eye contact: Remove contact lenses, if present and easy to do. Continue rinsing. Rinse immediately with plenty of water for 15 minutes, lifting lower and upper lids. If eye irritation persists: rinse immediately with plenty of water. Get medical advice/attention.

First-aid measures after ingestion: Obtain emergency medical attention. Rinse mouth. If the person is fully conscious, make him/her drink two glasses of water. Never give an unconscious person anything to drink. DO NOT induce vomiting. Call a POISON CENTER/doctor/physician if you feel unwell. If medical advice is delayed, and if the person has swallowed a moderate volume of material (a few ounces), then give three to four ounces of hard liquor, such as whiskey. For children, give proportionally less liquor, according to weight.

Most important symptoms and effects
Symptoms/injuries: Causes damage to organs (kidneys)(oral). Suspected of damaging fertility or the unborn child.

Symptoms/injuries after skin contact: Causes skin irritation.

Symptoms/injuries after eye contact: Causes serious eye damage.

Symptoms/injuries after ingestion: Swallowing a small quantity of this material will result in serious health hazard. The lethal dose in humans is estimated to be 100 mL (3 oz.).

Indication of any immediate medical attention and special treatment needed
A more effective intravenous antidote for physician uses is 4-methylpyrazaole, a potent inhibitor of alcohol dehydrogenases, which effectively blocks the formation of toxic metabolites of ethylene glycol. It has been used to decrease the metabolic consequences of ethylene glycol poisoning before metabolic acidosis coma, seizures, and renal failure have occurred.

5. FIRE-FIGHTING MEASURES

Extinguishing Media

Unsuitable Extinguishing Media: Do not use a heavy water stream. May spread fire.

Special hazards arising from the substance or mixture

Fire Hazard: During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon monoxide. Carbon dioxide.

Reactivity: No dangerous reactions known under normal conditions of use.

Advice for firefighters

Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Special protective equipment for firefighters: Wear positive pressure self-contained breathing apparatus (SCBA). Protective fire fighting clothing (includes fire-fighting helmet, coat, pants, boots and gloves).

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Emergency procedures: Evacuate unnecessary personnel.

For emergency responders

Protective equipment: Equip cleanup crew with proper protection. Refer to Section 8.2.

Emergency procedures: Ventilate area.

Environmental precautions
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

Methods and material for containment and cleaning up
Methods for cleaning up: Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.

Reference to other sections
See Section 8. Exposure controls and personal protection.

7. HANDLING AND STORAGE

Precautions for safe handling

Precautions for safe handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor.

Hygiene measures: Do not eat, drink or smoke when using this product. Wash affected areas thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Storage Conditions: Keep only in the original container in a cool, well ventilated place away from: Heat sources. Keep container closed when not in use. Product may become solid at temperatures below -37°C (-34°F). Do not store near food, foodstuffs, drugs or potable water supplies. Do not cut, drill, weld, use a blowtorch on, etc. containers even when empty.

Incompatible products: Keep away from strong acids, strong bases and oxidizing agents.

Incompatible materials: Sources of ignition.

Specific end use(s)
No additional information available.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

<table>

</tbody>
</table>

Exposure controls

Personal protective equipment: Avoid all unnecessary exposure. Gloves. Safety glasses.

Individual protection measures, such as personal protective equipment

Hand protection: Wear protective gloves.

Eye protection: Chemical goggles or safety glasses.

Respiratory protection: If exposed to levels above exposure limits, wear appropriate respiratory protection.
9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical State: Liquid
Color: Slightly yellow to green
Odor: Mild
Odor threshold: No data available
pH: 8
Relative evaporation rate Nil
( butylacetate=1):
Freezing point: -37°C (-34°F)
Boiling point: 107°C (224°F)
Flash point: 116°C (241°F) [100% Ethylene Glycol] ASTM D56
Auto-ignition temperature: 400°C (752°F) [100% Ethylene Glycol] Literature
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapor pressure: <0.1 @ 20°C
Relative vapor density at 20°C: No data available
Specific Gravity: 1.04
Density: 1.04 kg/l (8.7 lbs/gal)
Solubility: Water, Complete
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosive properties: Not applicable
Oxidizing properties: Not applicable
Explosive limits: Not applicable
Other information
VOC content: 0.00%

10. STABILITY AND REACTIVITY

Reactivity
No dangerous reactions known under normal conditions of use.

Chemical Stability
Stable.

Possibility of Hazardous Reactions
Hazardous polymerization will not occur.

Conditions to Avoid
Keep away from any flames or sparking source. Extremely high or low temperatures.

Incompatible Materials
Keep away from strong acids, strong bases and oxidizing agents.

Hazardous Decomposition Products
11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

**Acute toxicity:**
Oral: Harmful if swallowed.

<table>
<thead>
<tr>
<th>Compound</th>

</tr>
</tbody>
</table>

Skin corrosion/irritation: Not classified

pH: 8

Serious eye damage/irritation: Not classified

pH: 8

Respiratory or skin sensitization: Not classified

Germ cell mutagenicity: Not classified

Carcinogenicity: Not classified

Reproductive toxicity: Suspected of damaging fertility or the unborn child.

Specific target organ toxicity (single version): Not classified

Specific target organ toxicity (repeated exposure): May cause damage to organs (kidneys) through prolonged or repeated exposure (oral).

Aspiration hazard: Not classified

Potential adverse human health effects and symptoms: Based on available data, the classification criteria are not met. Harmful if swallowed.

Symptoms/injuries after skin contact: Causes skin irritation.

Symptoms/injuries after eye contact: Causes serious eye damage.

Symptoms/injuries after ingestion: Swallowing a small quantity of this material will result in serious health hazard. The lethal dose in humans is estimated to be 100 mL (3 oz.).
## 12. ECOLOGICAL INFORMATION

### Mobility in soil:
ethylene glycol (107-21-1)
Surface tension | 0.048 N/m (20°C / 68°F)

diethylene glycol (111-46-6)
Surface tension | 0.485 N/m

Other adverse effects:
Effect on ozone layer: No known effect on the ozone layer.
Effect on global warming: No known ecological damage caused by this product.
Other information: Avoid release to the environment.

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Waste disposal recommendations: Dispose of contents/container in a safe manner, to appropriate waste disposal facility, in accordance with local/regional/national/international regulations.
Ecology – waste materials: Avoid release to the environment.

14. TRANSPORT INFORMATION

In accordance with DOT Transport document description: UN3082 Environmentally hazardous substances, liquid, n.o.s., 9, III

UN-No. (DOT): 3082
DOT NA no.: UN3082
Proper Shipping Name (DOT): Environmentally hazardous substances, liquid, n.o.s.
Department of Transportation (DOT) Hazard Classes: 9 – Class 9 – Miscellaneous hazardous material 49 CFR 173.140

Hazard labels (DOT): 9 – Class 9 – Miscellaneous dangerous materials)

DOT Symbols: G – Identifies PSN requiring a technical name

Packing group (DOT): III – Minor Danger

DOT Packaging Exceptions (49 CFR 173.xxx): 155

DOT Packaging Exceptions (49 CFR 173.xxx): 203

DOT Packaging Exceptions (49 CFR 173.xxx): 241

DOT Quantity Limitations Passenger aircraft/trail (49 CFR 173.27): No limit

DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75): No limit
DOT Vessel Stowage Location:  
A – The material may be stowed “on deck” or “under deck” on a cargo vessel and on a passenger vessel.

Other Information:  
Non Bulk: Not regulated by the US D.O.T (in quantities under 5,000 lbs. in any one inner package).

ADR  
No additional information available.

Transport by sea  
UN-No. (IMDG): Not regulated by IMDG (in quantities under 5,000 lbs. in any one inner package).

Air transport  
UN-No. (IATA): Not regulated by IATA (in quantities under 5,000 lbs. in any one inner package).

15. REGULATORY INFORMATION

US Federal Regulations

Autoguard Extended Life 50/50 Prediluted Antifreeze & Coolant
